MANUFACTURED WITH

Heart & Soul

Not all kitchens are created equal. It's not until you dig a little deeper that you begin to understand that looks can be deceptive. For example, the stiles and rails of our wooden doors are made from solid kiln dried timbers unlike some manufacturers. No laminates here.

We are intensely proud of the fact that our cabinets use glue and dowel construction for added strength. Not so that we can charge a premium but so we can ensure our products are of the finest quality.

Our kitchen manufacturing partner employs the latest hi-tech machinery. This may not mean much when you're looking for a new kitchen but when you consider the fact that it enables them to manufacture our products more efficiently here in the UK, it means we can ensure the kitchens we supply offer you exceptional quality and value for money.

HAND FINISHED BY

Craftsmen

When you look at what goes into making your kitchen, you realise that quality is more than just skin deep. It takes dedication and a passion for fine craftsmanship, and that comes from our industry leading manufacturing partner. They take pride in their work and know how to craft the perfect kitchen.

Their attention to detail borders on the obsessive, so naturally they only use the finest components. Take the hinges for example, they use the best 'in-line' hinge plates. This makes fine-tuning the door height easy. All our kitchens are hand finished too.

Our solid timber doors are sanded by hand, as no machine can ever replicate the finish that we require. Certain key components are also still fitted by hand, so we can ensure tolerances are correct and our products will provide years of trouble free service.

This attention to detail doesn't just end when a kitchen is manufactured. Our kitchens are delivered to your home by our experienced staff. It's that uncompromising quality and willingness to create something truly amazing that makes our kitchens so special.

YOUR KITCHEN

Your Colour

How many times have you fallen in love with a product only to find it's not available in the colour of your choice?

We understand that colour is subjective. It's a very personal choice despite what the current trends or fashions dictate.

We appreciate that when you're investing in your dream kitchen you shouldn't have to compromise on colour. It's about your dream and vision.

This is one of the reasons why our manufacturing partner puts so much thought into their manufacturing processes.

It means we can offer you more flexibility and choice, so if you want us to colour match a painted door to a specific shade, no problem - even if it's electric pink!

We have specially selected 16 painted finishes to create our colour palette, but if you have a favourite colour in mind then please let us know as we offer a full paint matching service.

KITCHEN RANGES

Contemporary

The clean simple lines of a modern kitchen help to create a calming, uncluttered feel. The flat, slab style features of a contemporary door make it an excellent canvas for our wide variety of colours, textures and wood grains.

KITCHEN RANGES

In-Frame

A classically created in-frame kitchen is instantly recognisable by its design. The appearance of a door enveloped by a frame conjures images of traditional, time served craftsmanship.

Finished in lacquer or paint, our in-frame kitchen ranges feature square framed doors with flat centre panels or traditional beaded details. An in-frame kitchen is both a practical and stylish choice for the more discerning customer.

White and Bespoke Painted

Chatsworth

The carefully crafted charm of this classic in-frame design is what makes the Chatsworth range such a popular choice.

The understated, flush-jointed shaker door is set within a cock-beaded frame, making this an elegant and versatile range, suited to a wide range of interiors.

AVAILABLE IN 16 COLOURS, OAK & BESPOKE PAINTED

Denby

The attention-grabbing Denby range is created to match highly desirable in-frame craftsmanship with the very latest features and finishes.

Purposely unfussy, Denby blends modern simplicity with stunning features, including the convex curved units and bespoke or standard colours, with grooved joints and shaker-style appeal.

EVERYTHING IN ITS PLACE WITH

Storage innovations

Your new kitchen should look just as good on the inside as it does on the outside. Not only that, it should also provide useful storage space for everyday essentials, from utensils to household items.

Every item in your kitchen should have its place and be within easy reach. A clutter-free environment is far more conducive to cooking and preparing food efficiently and it helps by having highly ergonomic, usable storage. Our innovative solutions make life easier and are an absolute joy to use. Every one of our kitchens has the option to include innovative storage

solutions by Kesseböhmer. They are experts at maximising potential storage space in your kitchen. Their range of products ensures that the internal cabinet space of your kitchen furniture is utilised as effectively as possible.

Kesseböhmer products are manufactured to exacting standards and have won many European awards for design and innovation. Sometimes the simplest things are the most extraordinary. Just as nature exhibits amazing efficiency among its elements, Kesseböhmer strives to achieve the perfect balance between form and function in the kitchen.

NO.15 150MM PULL OUT BASES

With the right fitting, narrow gaps can provide a surprising amount of storage space and functionality. The 150mm towel rail, baking tray and tray rack offer practical, individual choices for fitting out narrow base units.

Solid bottom shelves are available on some Kesseböhmer mechanisms.

Please note: Wire-work product images are for illustrative purposes only and may differ from the actual product supplied.

Kesseböhmer features greater load bearing capacity than typical storage systems.

LE MANS BASE CORNER

LeMans trays swing smoothly and almost effortlessly out of the corner cupboard. You get a clear view and ready access to every stored item. LeMans scores top marks for efficiency and convenience.

Please note: Wire-work product images are for illustrative purposes only and may differ from the actual product supplied.

DISPENSA JUNIOR

300MM & 400MM

Kitchens change every day. Especially with small cupboards you may want to change the use from one day to the next. A DISPENSA junior is a flexible system with the extra benefit that it can be retrofitted. So there'll be no problem making the changes you want.

MAGIC CORNER

BASE CORNER

The truly "magic" solution for your corner. Although this has less to do with magic than it does with intelligent design and technical know-how! MagicCorner is capable of housing two complete storage units next to each other in one corner cabinet.

REVO 90

CAROUSEL

A newly developed control mechanism enables a controlled action through all phases – from the doors softly folding back to the swift rotation and finally the automatic closing movement.

Thanks to rotational damping and to REVOfit, the action turns into an individual experience.

Full extension runners on all Kesseböhmer mechanisms.

LARDER PULL-OUT

Not an inch wasted! The DISPENSA pantry pull-out allows up to 100 kg of stored groceries to glide smoothly out of the cabinet.

It is installed very quickly, requires no maintenance and can be cleaned without a problem. These are impressive benefits!

TANDEM PULL-OUT LARDER

Ingeniously simple: TANDEM creates two clear shelves on each level.

As with fridges, when the door opens the contents are divided between door shelves and cupboard shelves, which glide towards you automatically. The result; in one motion everything is within easy view and easy reach – double overview!

Opening the cabinet door will trigger one of those thrilling moments. The intelligent pull-out technology draws the rear section automatically forwards, creating an impressive overview of easily accessible supplies. The door shelf too is carefully designed to maximize storage space.

Please note: Wire-work product images are for illustrative purposes only and may differ from the actual product supplied.

THE LITTLE THINGS THAT

Make a big difference

For us, a kitchen that functions as good as it looks can only be achieved by using the finest components. For drawers we chose Blum® Tandembox with Blumotion full extension, soft close runners as standard for silent, effortless operation.
